

### NATIONAL WOMEN'S PARTY APPEALS FOR DEFEAT OF WILSON

ILLINOIS CHAIRMAN FOR WOMEN HAS MESSAGE FOR WOMEN VOTERS.

#### WILSON BLOCKED SUFFRAGE AID

Wilson and His Party Stood in Way of Political Freedom for the American Women.

Call to Women Voters of Illinois, by Mrs. Bertram Sippy, Chicago, State Chairman National Woman's Party.

Women Voters of Illinois:

The unfranchised women in 36 states have appealed to you, the women voters of Illinois, to help them in their struggle for political liberty. We are strong; they are weak. To gether we believe in a free womanhood.

The strength of party organizations in thickly populated eastern states and the illiberality of eastern state constitutions, in many cases impossible to amend, close to voteless women the door of enfranchisement by work in their own states.

One hundred women in the west, who can vote, have more political strength than 10,000 in the east.

But this strength, to help women, must be used by them at the polls.

Vote against President Wilson. He opposes national woman suffrage.

Politicians of all parties want the votes—your votes. We are asking you to make it clear to them that no party will get the support of women which has denied justice to women.

For four years President Wilson has been entreated to favor the federal amendment enfranchising women and permit it to go through congress, so that the states might act upon it. He has refused and his party has blocked its passage.

We beg you, for the sake of the won of the future, who should be born to freedom, not to return to the White House a man, who as leader of his party, is standing in the way of freedom for American women. Help win political liberty for all American women BY VOTING AGAINST WILSON.

### PRaise FOR MEMBERS OF CLARKE COMPANY

ARTISTS WHO APPEAR AT M. E. CHURCH TONIGHT ARE PROFICIENT

#### ALL HAVE STUDIED IN EUROPE

Concerning the members of the Clarke Concert Co., who appear at the Methodist church in the entertainment course given by that church, the Lyceum News says:

C. Edward Clarke graduated from the University of Toronto in 1903 with the degree of B. A. He made two tours of Canada and the state with a concert company. He then studied abroad in London with Snakespeare and in Paris with Bouhy and Seagle. Returning to America, he again gained valuable experience in the concert field, touring with noted artists and at the head of his own company several years.

In 1908 he returned to Paris and there for nearly three years was active in the musical life of that city, teaching, singing in the American church and studying with the world famous teacher, Jean de Reszke.

Mr. Clarke has appeared in nearly every city and town in the United States and is now in constant demand by the leading musical and oratorio societies, appearing this season with the Apollo Club of Chicago, the Arion Club of Milwaukee, and many other clubs of high standing.

Rachel Steinman Clarke was born in the city of Wloclawek, Poland, a country that has produced some of the world's greatest violinists, and although she has lived nearly all her life in the United States, she possesses distinctive temperament and individuality of the Polish artist.

Like all violinists of merit, she began her studies at an early age and has studied in Chicago under Jacobson and Van Gort; in New York under Hubert Arnold and later in Paris with Jacques Thibaud, who is considered by many as the world's greatest violinist.

Karl Victor Prah is a young and brilliant Chicago pianist, a pupil of Julie Reve-King and an artist that for several seasons has been much in demand as a pianist and accompanist.

#### Planned to Steal Car.

In a statement to the officials they acknowledged that they came to Dixon from Chicago Tuesday night, Sept. 5, with the express purpose of stealing an automobile and going south. They said they had been told by an expert auto thief in Chicago that the best place to steal an auto was from in front of a theatre, as the chances were the owner was inside and no one would suspect one of theft who walked right up to a car in a brilliantly lighted street, such as it is in front of an average theatre.

#### Stept Until Late.

They arrived in Dixon at midnight Tuesday, went to the Dixon Inn and slept until noon Wednesday, then spent the afternoon getting information concerning roads out of town. (Special to Telegraph)  
Ashton, Oct. 31.—The greatest political rally in the history of Ashton was the republican gathering at the high school building Monday evening, when Hon. B. M. Chiperfield, republican candidate for United States senator, himself a former Ashton boy, was the principal speaker. The auditorium at the school was filled to capacity for the meeting and the wonderful argument presented by the speaker repaid all for their presence. He said in part:

"Peace we have," said Mr. Chiperfield, "but if the kind of peace we are having today is the kind of peace we are to keep on having, then I pray to God that we will see no more such peace.

If we are to surrender ever sacred tradition of our country, if our flag is to be trailed in the dust in shame and humiliation as it has been during the Wilson administration, then the peace we have been too dearly bought.

### AMERICANS AMONG VICTIMS OF SINKING OF STEAMER MARINA

#### LANSING REFUSES COMMENT.

Says Reports Are Too Incomplete To Permit Him Making Any Statement.

(Associated Press)

London, Oct. 31.—The number missing from British steamship Marina, which was torpedoed off the coast of Ireland, has been reduced to 13, according to U. S. Consul Frost at Queenstown; 52 more survivors have been landed. Consul Frost reported that there will probably be American casualties among the 13.

The Marina sank within ten minutes, it is said by survivors, who state that the vessel was torpedoed without warning. The American consul at Glasgow has stated that there were 50 Americans aboard the Marina when she left there Oct. 25 for Baltimore and Newport News.

#### Lansing Refuses Comment.

Washington, Oct. 31.—Sec. Lansing said the reports on the destruction of the British steamship Marina, with the probable loss of American lives, are still too incomplete to permit any conclusion or to allow him to discuss the case. those fiends of perdition from across the Rio Grande in such horrible manners that had the same crimes occurred here, and the authorities taken no more action to stop them than has the Wilson administration, then as much as we all abhor mob law, the manhood of Lee county would have risen to the protection of our womanhood and would have exterminated the beasts.

Our women have suffered greatest wrongs ever heaped upon the women of a country, and the fiends did not even stop at convent doors, but burst in and then, in addition to dishonoring the American women of the laity, seized upon the sacred women of the convent who had consecrated their lives to the teachings of Christianity and made them also victims of their hellish lust.

Information of all this was given to Mr. Wilson and his advisors, but such information was officially withheld from the public while the weak-kneed administration refused to demand reparation.

## SAN FELICE STANDARD TO BE MAINTAINED, SAY MAKERS

All Dealers Now Sell Famous Cigars at 5c Straight. In Effect Today.

Owing to the greatly increased cost of quality tobaccos, in fact everything pertaining to high grade cigars, the makers of the San Felice cigar, The Deibel-Wemmer Company, have advanced the selling price to the jobbers and dealers, and henceforth this cigar will positively be sold to the consumer at 5 cents straight instead of six for a quarter as previously.

The SAN FELICE is national in its scope and character, having justly attained this eminence through its unequalled quality. To maintain this unexcelled standard of quality, the advance in question is absolutely unavoidable. The generous support of all men using quality cigars is earnestly desired.

## NATION-WIDE PROBE INTO FOOD PRICES

Circular by Wholesale Grocers at Bottom of Inquiry.

Chicago, Oct. 31.—Ten of the largest wholesale grocers in Chicago were summoned to appear before United States District Attorney Charles F. Clynne, to tell him of the part which they have taken, if any, in the recent phenomenal increase in the prices of foodstuffs. The grocers were summoned after a conference between District Attorney Clynne, has first assistant, Joseph B. Fleming, and Hinton G. Clabaugh, head of the bureau of investigation of the department of justice.

The subject of this conference, primarily, was the consideration of letters and circulars which the large wholesale grocers are said to have dispatched to the retailers telling them to increase the prices of their food stuffs and "enjoy the wave of prosperity which is now affecting the food industry."

It became known in the federal building that for months past a food investigation affecting every state in the union under the direct supervision of Hinton G. Clabaugh, has gone unnoticed. Wholesale grocers in fourteen southern states, in Iowa and Nebraska and in Ohio, Michigan, Illinois, Indiana, Kentucky and New York have been investigated recently, some as recently as two weeks ago, and reports made to the headquarters at Washington. There the decision as to action which will reduce the price of staples for the consumer will be made.

## MEXICAN CHIEFS BACK CARRANZA

Obregon, Gonzales and Others Favor His Nomination.

## SIGNED STATEMENT ISSUED

Document Believed Also for Consumption in United States—Queretaro Convention in View—Leaders Declare Revolution Is by Unselfish Men and They Will Show It.

Washington, Oct. 31.—Evidently anxious to impress the idea that order can be restored in their chaotic republic, and also that everything is harmonious in the federal army, General Alvaro Obregon, Pablo Gonzales, Benjamin Hill and Eduardo Hay announced themselves as favoring Carranza for the Constitutional presidency of Mexico. The document, cabled from Mexico City and issued through the Mexican news bureau, is really a sort of nominating speech, made almost on the eve of the Queretaro convention. It is believed that Carranza inspired the statement, thus hoping to influence the United States in general and the American-Mexican commission in particular.

## All Rally to First Chief.

Part of the wordy document reads: "Now is the time for all revolutionists to show once more the indestructible solidarity that binds us, as shown when the Niagara conference separately addressed the Constitutional leaders, putting to play diverse suggestions and finding as a unanimous reply that we were all rallying around the first chief to defend the interests of the country. The unbridled personal ambitions of the leaders of the past revolutions has given room to the general belief that we are incapable to control our passions and establish harmony around our own government."

"We should now demonstrate, perhaps for the first time and for future example, that the time has come for a modification of the above despicable judgment, that there are now revolutionaries who do not aspire to power and who will not arise in arms on account of spite."

Eliseo Arredondo, the ambassador designate, received a telegram from El Paso conveying alleged information from Chihuahua to the effect that federal troops had occupied Santa Ysabel. The same message brought the news that another "dangerous bandit" had been captured and shot at Ojinaga. This bandit happened to be Arcadio Armandaz who "has a great number of accusations against him."

## Arredondo Fails to Appear.

Mr. Arredondo did not appear at the state department to repudiate the statement attributed to Louis Cabrera but which Cabrera disavowed. Arredondo had said he would call on Mr. Lansing and repudiate the interview. But he later said he was ill.

The Mexican news bureau, through which the statement was issued, is closely connected with the Mexican embassy. George L. Edmonds, who circulated the Cabrera interview refuses to make a statement. His friends, however, have entire confidence in him in the present matter. The state department did not appear inclined to go any further into the situation.

## We Have Looked for This for Years.

Chicago, Oct. 31.—The coffee pot boiled over and caused a tragedy in the home of Mrs. William Olsen. She left the pot on the gas stove in her home and went to the store. In her absence the pot boiled over and extinguished the flame. The fumes asphyxiated her husband, sixty years old. He was dead on the floor when she returned.

All the usual make-ups, clowns, Spanish folk, Charlie Chaplins, Yama Yama girls, cow boys, Colonial folk, gypsies, etc., with many that were unusual, were there. The judges had much difficulty in knowing to whom to award the prizes as all were so attractive, but, after much deliberation, it was decided to have Mrs. Samuel Mall, as Martha Washington, and Mrs. Homer Senneff, as the Dutch girl, as pictured on cans of Dutch Cleanser. Draw lots. As to the most ridiculous was a tie between Clarence Knox as the colored tramp and Vernon Schrock as the Hebrew vendor.

Games appropriate to a Halloween occasion were enjoyed to the fullest extent, everyone entering fully into the merriment of the evening.

The refreshments included the proverbial pumpkin pie, doughnuts, coffee, and even though the men in charge forgot to get cream for the coffee, the cats were greatly enjoyed. The trip out to the Miller farm was made in hay racks and in auto mobiles.

## Good Old Home-Made Family Cough Remedy

Much Better than the Ready-Made Kind—Easily and Cheaply Prepared.

If you combined the curative properties of every known "ready-made" cough remedy, you would hardly have in them all the curative power that lies in this simple "home-made" cough syrup which takes only a few minutes to prepare.

Get from any druggist 2½ ounces of Pinex (50 cents worth), pour it into a pint bottle and fill the bottle with plain granulated sugar syrup. The total cost is about 54 cents and gives you a full pint of really better cough syrup than you could buy ready-made for \$2.50. This Pinex and sugar syrup preparation gets right at the cause of a cough and gives almost immediate relief. It loosens the phlegm, stops the nasty throat tickle and heals the sore, irritated membranes that line the throat, chest and bronchial tubes, so gently and easily that it is really astonishing. A day's use will usually overcome the ordinary cough and for bronchitis, croup, whooping cough and bronchial asthma, there is nothing better.

Pinex is a most valuable concentrated compound of genuine Norway pine extract, combined with guaiacal and has been used for generations to break up severe coughs.

To avoid disappointment, be sure to ask your druggist for "2½ ounces of Pinex" with full directions, and don't accept anything else. A guarantee of absolute satisfaction or money promptly refunded, goes with this preparation. The Pinex Co., Ft. Wayne, Ind.

### Wedding and Shower

Miss Lola Krehl of Franklin Grove was married on Sunday afternoon in the Presbyterian church in Franklin Grove to Charles Porter Randolph of Indianapolis, Ind. Only a few relatives and friends witnessed the ceremony. The ring service was used.

Miss Krehl, who was born and raised in Franklin Grove and who has been an assistant in the Martin Peterman store for some time, is exceedingly popular in Franklin. She is a splendid young woman and the love and best wishes of her countless friends go with her to her new home in Indianapolis, where she and her husband will reside.

Monday evening at the home of Miss Grace Pearl in Franklin Grove a shower was held for the young bride. The shower had been planned for a pre-nuptial affair, but circumstances made it necessary to have the shower after the wedding.

About one hundred people took part in the shower for the happy couple. The presents were much more in the shape of wedding presents than the usual gifts at a shower. Costly ear rings, beautiful silver, and countless gifts of an elegant nature were presented to the bride.

The home of Miss Pearl was most beautifully decorated in Halloween designs. Jack O'Lanterns covered all the electric lights and black cats and all the other ghastly symbols of Halloween were in evidence. Several big wedding bells were added to the decorations and one corner of the reception room was converted into a sort of throne for the bride and groom. This seat was elaborately decorated.

The committee which was responsible for the party of the bride was composed of Mrs. Joseph Senger, Mrs. H. A. Dierdorff, Mrs. Nadie Blaine and Miss Grace Pearl. The ladies surely managed things very beautifully for the party.

FRANK O. LOWDEN

## A MAN WORTH VOTING FOR.

Illinois republicans are elated and will take a great deal of pleasure in going to the polls on election day and voting for Frank O. Lowden for Governor. Their elation is justified, for they are about to elect a man as governor who is every inch a man. A man who will put the party in this state back on its pedestal of high standard, efficiency, and service to the state of Illinois. This state will breathe a sigh of relief when it swings back into the republican column and finds itself once more under the administration of a man who will administer the affairs of government in Illinois in a manner that will give our people reason to decide that they will never again make it possible for the democratic party to gain control of the capitol at Springfield. There have been but two democratic governors in Illinois. The people of this state find republican control more conducive to their welfare. Col. Lowden will make us realize more than ever by his wise control of things, what a mistake was made in 1912.

Illinois voters were not long in realizing, after the election of Governor Dunne, that a serious mistake had been made. The annual taxes brought them wide awake to the gravity of the situation, and each succeeding tax levy made the situation more painful to contemplate. The cost of keeping "Deserving democrats" in jobs and the way the democratic administration threw the people's money right and left soon doubled taxes despite Governor Dunne's bitter denunciation of the wastefulness of the previous republican administration and his promises of economy.

The known honor and integrity of Frank O. Lowden, the record of his public and private past, his great ability and his straightforward, progressive platform, all make Lowden's nomination as the republican candidate extremely welcome to the voters of all parties in this state.

Col. Lowden will and should be elected by an overwhelming majority.

## OUR LEGISLATIVE SITUATION.

There are four candidates for the Illinois state legislature from this, the 35th senatorial district. They are: Carpenter of Lee county, republican; Brewer of Whiteside county, republican; Devine of Lee county, democratic; and Carter of DeKalb county, progressive. The Legislative Voters' League, a non-partisan organization, recommends Carpenter, Brewer and Devine. The anti-saloon league is working for Carpenter, Brewer and Carter. The anti-saloon league is laboring under the mistaken idea that it can elect all three dry men and beat Devine, the democratic candidate. What the anti-saloon league is actually doing is weakening its own chances by dividing its strength between three men instead of two.

As the Telegraph sees it, there is no possibility of defeating the democratic candidate, Devine, even if there were desirable. Devine will get practically a solid democratic vote, and the most of them will "plump" three votes for him. And although he voted for woman's suffrage and has a very fair dry record from the dry point of view with the single exception of his failure to vote for county option, he will get many "wet" votes from all parties because of the anti-saloon league's open support of the other three candidates. Devine's election is conceded. Every dry that gives his vote to Carter, the progressive candidate, is simply taking a vote from Carpenter and Brewer, the two regular republican candidates. If the progressive could get enough dry votes, together with the regular support he will naturally get in his own county, to be elected, it would simply defeat one of the republican candidates. Both of the republican candidates are men of ability and high standing and if elected they will be a credit to this district.

From a republican point of view the situation as it has been in the past and will be in the future if the two republican representatives are elected, is very satisfactory, because DeKalb county has the republican senator, Adam Cliffe, and Lee and Whiteside counties both have a republican representative. This condition makes for party harmony in the district and should be continued, for it is fair to all. If Carter were elected it would give DeKalb county a senator and a representative and would leave one of the other counties without a representative.

The thing for republicans all over this district to do is to vote a straight ticket, dividing their three votes between Carpenter and Brewer. If this is done, the two republican representatives are certain of election.

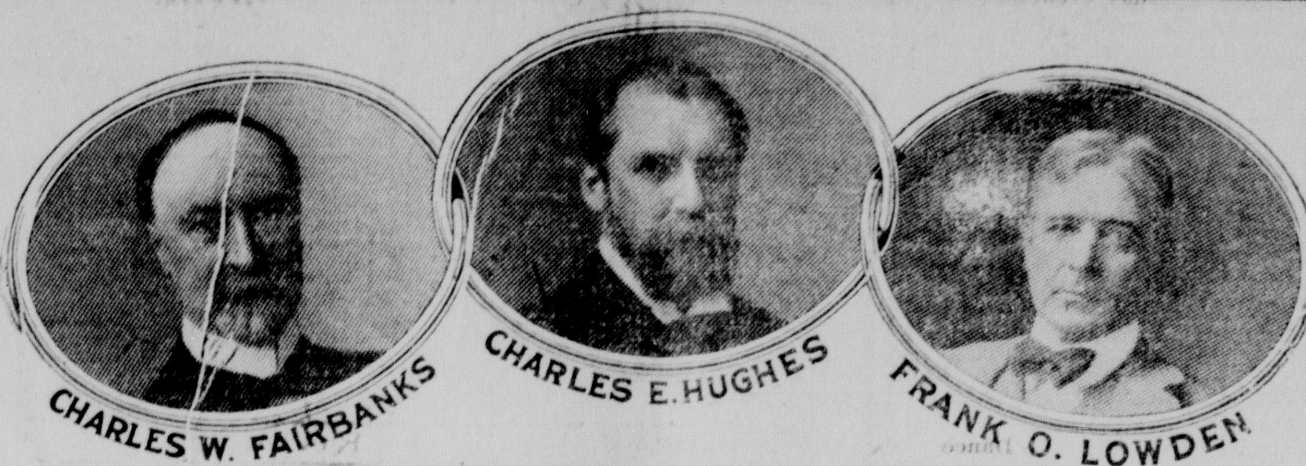

This action of the anti-saloon league of jeopardizing the chances of election of one of their two dry republican candidates in a vain and unwise attempt to elect all three dries, is in keeping with the league's foolish and disastrous effort to control the republican gubernatorial primary election. The league is making progress backward and its political policy is greatly injuring its influence for good.

Dries in several parts of Lee county have been asked to give Carter a vote and some of them have been told that if they put a cross in the republican circle and then put a cross in front of Carter's name on the progressive ticket they are dividing their vote with the three dry candidates. This is not true. A cross in front of Carter's name and none in front of the names of the other two candidates gives Carter three votes and the others none.

Even if the voter's intention to split his vote three ways were carried out correctly, and a cross put in front of all three names, the voter is dividing a support that should be concentrated upon the two republican candidates if their election is to be made certain. Every vote for Carter weakens the chances of one of the two regular republican candidates.

The only proper and safe thing for a republican voter to do is to put a cross in the republican circle at the top of the column and in that way he gives Carpenter and Brewer each a vote and a half. Do not throw away your vote, Mr. Voter. Nor do not spoil it. Vote your ticket straight and be safe.

We believe that the attempt to defeat John Devine of Dixon, the democratic candidate, is ill advised. As there must be a minority representative from this district, let him be from this county, and not from DeKalb county, where they already have a state senator. Devine's record in the house is

## "A THREEFOLD CORD CANNOT QUICKLY BE TORN ASUNDER"

mendable in many ways. Devine is thoroughly honest and has proven himself to be a dependable representative. Lee county needs its two representatives for the development of the epileptic colony.

The two republican candidates are everything that could be desired. Brewer has a splendid record in the house and he has been a credit to his district. Carpenter is a new candidate, but his ability, his long residence in this county (he is editor of the Amboy News), his character, his private life and his service to the party all commend him for the position. Carpenter is honorable and reliable. Lee county needs and wants him in the legislature, and it is up to Lee county republicans to see that he goes there.

The democratic administration is postponing so many things until after the election, the conclusion is forced that it intends to do many things which they fear the public will not approve. What are they going to do?

The only question regarding the election in this state is how much more than 200,000 will Colonel Lowden's majority be.

## AS PAPER CLIMBS

White paper of the print variety was quoted at seven cents a pound in St. Louis this week.

The Post-Dispatch yesterday discarded the rule and slug over the seven column box heading on its sport page, thereby saving an eighth of an inch across the page, or a total of one inch for the eight columns. Some economy, eh?

The Peoria Star picked Friday the thirteenth to announce that it will have the issue of next Monday cut off its entire exchange list, eliminating every newspaper, interchange, the action being based on the tremendous increase in the cost of white paper.

As the result of studies which have been made at the forest products laboratory on methods of handling wood chips suitable for paper pulp, it is announced that Wisconsin paper companies are now negotiating with the railroads for shipment to their factories of experimental train loads of chips of western woods adapted to paper making. Previous investigations by the Forest Service have demonstrated that good grades of paper can be made from a number of western woods. The experts now estimate that some of these woods, when cut into chips and dried and baled can be delivered to the mills in Wisconsin at a very small advance over the cost of chips made from local timber. If a favorable freight rate can be obtained, they say, the great quantity of pulp wood on the national forests should prove to be a considerable factor in supplying favorably located paper mills with the necessary raw material.

## THE PLEASING SIDE OF GOLF

An editorial in the New York Evening Mail reads:

"Perhaps life is not greatly improved over what it was in bygone centuries. When everything, including the milk, goes on strike, and the self-starter fails to work, and the third cook in three days walks out the door, it does seem as if civilization was not unalloyed bliss. A such a time, as Pollyanna would suggest, let us turn to the bright side of life and reflect only a few short decades ago the blessing of golf was utterly unknown to America. The enterprising American had his business and that was all. Play was a thing for children and the professional of baseball.

"So there should be a good many thousand Americans to take off their hats to the memory of the late John Reid, who did more than any one man to transplant golf from its native heath to the United States. I was in the early 80's that Mr. Reid organized the beginnings of the St. Andrews Golf society. Just who hit the first golf ball in the United States it is not easy to determine. Stray holes and the occasional impatience of stray clubs have been variously reported. To Mr. Reid's efforts has been generally ascribed the first organized playing of the game, and his sturdy figure will stand as an undoubted landmark in American golf.

"It was nothing less than a new conception of play that golf brought to America. Heretofore the typical American business man worked until he dropped—not necessarily because he did not want to loaf toward the end, but because he had lost all habit of play and was constitutionally unhappy when not perpetually grinding along. Golf is one of the best of young men's games; it is

the only old man's game. You may or may not take it to your heart as a boy. Sooner or later you will be glad enough that it exists. It is a blessing that brightens with the years and has probably brightened more years of the tired business American than all the other sources of amusement put together."

Of course that's all very nice, but 10 to 1 the man who penned it had not just sliced into the rough, pulled into a bunker, mashed into a trap, missed a six-inch putt and lost the money for his wife's fall bonnet.

Providence Journal: The forecast of the national apple crop indicates that it will be short of last year's by 12 per cent. That, of itself, need not be a serious matter though, for the estimate is still generous enough to promise two bushels for every man, woman and child in the land. The real trouble is that we probably shall not get our two bushels per capita. The persistent ground of concern regarding the apple crop relates to its distribution. Too many apples never reach the hungry consumer. According to an official estimate not quite 65 per cent of last year's crop was sold. Absurdly high prices prevail, apparently not because of the scarcity of apples but because the machinery of distribution breaks down. Or is it tangled in the interest of the price fixers?

Deseret Evening News, Salt Lake City: An unostentatious but important factor at the University of Utah is the students' employment bureau. At the local school, perhaps as much as at any state university, there are worthy young men and women who need assistance in finding work outside of study hours. Without this work they would be unable to remain in school. Many of them must earn a large percentage of the money to meet the year's expenses, and not a few must entirely make their own way. A wide variety of talent is offered in the list of applicants. From expert accountants to furnace tenders and janitors there are dozens of occupations from which to choose. And these ambitious young men and women should be given great consideration and assisted in every possible way.

New York Evening Post: A decrease of \$55,000,000 in the assessed valuation of real estate in Manhattan is the striking feature of the figures given out by the tax department yesterday. Detailed examination of the character of this decrease will prove highly interesting when the times are available—the points of chief interest being the division of the assessment between land and improvements, and the ascertainment of the way in which increases and decreases in land valuation are distributed sectionally. A decrease of \$55,000,000 in the aggregate assessment means, of course, a much heavier decline in the land valuations of certain districts in the city; it is the net amount that remains after there have been matched against that decline both the increases that have taken place in land values in other sections and the net new investment that has been made in buildings.

They are planning a big thing in Kansas, and it is to be hoped that he plan will succeed. It is nothing less than a concrete road, clear across the state. It is figured that his will cost \$7,500 a mile, or \$3,500,000 in all. The state gets over \$2,000,000 out of the national treasury, but only half the cost of any road road can come out of that. Consequently, the people must raise the balance. The estimate is that the road would lessen by at least \$50 a year, the cost of hauling on each 160-acre farm along the road and add \$3 an acre to the marketable value of the lands—Hartford Courant.

# "VOTE YES" FIRST SAYS INSTITUTE

Other States Tax Intangible Values at Collectable Rates and Lift Tax Burdens Off Real Estate, Farmers Institute Explains.

## TAX AMENDMENT IS NEEDED

Amendment Was Drafted by a Representative Body of Which the Late A. P. Grout of Winchester Was An Earnest Worker and Was Well Considered In All Respects.

"VOTE 'YES' ON CONSTITUTIONAL AMENDMENT," is the advice given to Illinois farmers and taxpayers in a bulletin just sent out by the Illinois Farmers' Institute from Springfield. The bulletin reads:

Farmers of Illinois should remember to vote "Yes" on November 7 for the proposed Amendment to the State Constitution relating to personal property taxation and commonly known as the "Tax Amendment." This reminder is pursuant to resolution unanimously adopted at Decatur last February at the twenty-first annual meeting of the Illinois State Farmers' Institute, and reading as follows:

"RESOLVED, That we recommend the adoption at the next general election on November 7, of the pending Amendment to the Revenue Article of the Illinois State Constitution, in order that the General Assembly may have the necessary authority to revise our Revenue Laws and adjust the present unequal burdens of taxation."

The proposed Amendment will make no change of itself in the present tax laws but will give to the Illinois General Assembly authority to classify personal property for taxation—an authority granted in the Constitutions of 21 other states, including New York, Pennsylvania, Connecticut, Minnesota, Maryland, Virginia, Michigan, Wisconsin, etc. The Amendment if adopted will remove the restrictions now in the Constitution which are responsible for land and visible property bearing a constantly greater share of the total tax burden, and for the escape of intangible wealth, notes, stocks, bonds, etc., because laws cannot now be passed to tax these latter classes of property rigidly and surely and at the same time at a rate which will not confiscate one-third or more of the income.

Other states tax these modern forms of intangible wealth so that they pay in proportion to their ability, deriving large revenues which lessen the share of the burden upon real estate. Double taxation evils which harass the farmer in Illinois, also are largely remedied.

Illinois can profit by none of these modern methods of taxation unless the voters on Nov. 7 vote "Yes" for the adoption of the amendment to the constitution. The amendment was drafted by a representative tax commission, of which the late A. P. Grout of Winchester was a member. The legislature has submitted the amendment just as it was drawn. It is now up to the voters. A majority of all those voting for members of the general assembly is required to adopt this amendment. The amendment will appear at the top of the "little ballot." An unmarked "little ballot" counts against the amendment.

Those who believe that it is time to change from a tax system in force since 1818 and universally condemned, and who wish to be sure that the proposed amendment is carried by the people, should mark the "little ballot" first of all, mark it "Yes" for the amendment, and urge their friends and neighbors to do the same. —Illinois Farmers' Institute.

Do you know that mortgages are practised and untaxed in Illinois? The threat that they will be taxed gives "taxixers" work and keeps taxkickers uneasy. A low rate of taxes on mortgages can be collected. A higher rate will be evaded by the removal of the mortgage notes from the state. It will not be worth while to remove mortgage notes from Illinois if the tax be as low as generally prevails in other states.

Little is likely to be said against the Tax Amendment, says the Chicago Daily News. It is difficult to see how intelligent citizens who view the situation in its broad aspects can oppose affirmative action by the voters. Much emphasis, however, must be laid upon the need for the actual casting of an affirmative vote by every friend of tax reform.

Every voter should vote one way or the other on the Tax Amendment. The making and amending of constitutions is about the only way in which the voter acts in the matter of self-government. He should vote "Yes" on the Tax Amendment because the result is bound to affect him in his personal welfare.

The merchant you buy your goods from is in favor of the Tax Amendment because it will do away with the present law which requires that he be taxed on every dollar of credit which he allows to his customers.

Don't forget to vote "Yes" on the tax amendment—first on the "little ballot."

# MOTHER! GIVE CHILD "SYRUP OF FIGS" IF TONGUE IS COATED

If cross, feverish, sick, bilious, clean little liver and bowels

Children love this "fruit laxative," and nothing else cleanses the tender stomach, liver and bowels so nicely.

A child simply will not stop playing to empty the bowels, and the result is, they become tightly clogged with waste. Liver gets sluggish, stomach sour, then your little one's becomes cross, half-sick, feverish, don't eat, sleep, or act naturally, breath is bad, system full of cold, has sore throat, stomach-ache or diarrhoea. Listen, Mother! See if tongue is coated, then give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated waste, sour bile and undigested food passes out of the system, and you have a well, playful child again.

Millions of mothers give "California Syrup of Figs" because it is perfectly harmless; children love it, and it never fails to act on the stomach, liver and bowels.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Beware of counterfeits sold here. Get the genuine, made by "California Fig Syrup Company." Refuse any other kind with contempt.

## CUNNEA TARGET OF PROSECUTOR HOYNE

Accused of Irregularities As State A. O. H. Official.

Chicago, Oct. 31.—A statement issued from the office of State's Attorney Hoyne, in which Thomas H. ("Honest Tom") Daly, grocer at 6638 Cottage Grove avenue, is alleged to have accused William A. Cunnea, rival for the office of public prosecutor, of embezzlement from the widows' and orphans' fund of the Ancient Order of Hibernians while a secretary for the organization, sees new interest in the three-cornered race for the office of state's attorney.

Cunnea is accused in the statement of having embezzled \$1,102.62 fourteen years ago. The Socialist candidate vigorously denied the charge and declared that the same thing was brought up four years ago and fell flat. The statement was given out by Assistant State's Attorney Eugene Quirk with the sanction of the state's attorney and included records of the minutes of the Hibernian state convention of 1902, which was held at Kewanee, Ill., to back up the charge.

Cunnea denies the charge, and says the money was taken by him to cover his salary and printing bills.

## THE "CLASS" OF GOVERNOR DUNNE'S APPOINTMENTS

PAUL MATTHEWS, department and institution auditor—From the time he took the place he was, for the most part, in an intoxicated state and within a few months had to be displaced by Gov. Dunne.

FLORENCE SULLIVAN.—Gov. Dunne's "special investigator" of penal and charitable institutions. Sullivan disorganized the service by his interference and was accused by many newspapers of the state of being "short" \$19,000 in his accounts with the Joliet penitentiary in a certain "chair deal." Finally cut off of the pay roll by Dunne.

PATRICK HART.—Was secretary of the State Board of Labor Statistics; disappeared from his Springfield office and his accounts were reported as being \$3,000 short. Arrested and indicted, but State's Attorney Burke of Sangamon county was lenient and there was no prosecution.

DRS. P. T. DIAMOND, N. W. COX and B. A. SMITH—members of the Illinois State Board of Dental Examiners. Dunne appointees, barely escaped criminal prosecution for alleged sale of examination questions and of dentist's licenses.

JAMES AHERN, known as "Jim the Barber," member Board of Barbers' Examiners, hailed before Judge Kenesaw M. Landis, Chicago, because he carried a saloon license of a place conducted by two gamblers, F. W. Sells and Freddie Stall, Thirty-first street and Indiana avenue, Chicago, admitted the fact and pleaded he did so because he wanted to "help his constituents."

R. J. SHANLEY, compelled to resign as chairman of the State Live Stock Commission a few months ago in the midst of a scandal concerning the sale of "suspected" cattle. Shanley was a friend of Lee O'Neil Browne, a brother of Shanley, who was a custodian of condemned cattle at the yards, was the center of another tangle.

OFFICIALS Illinois State penitentiary—Under Gov. Dunne there have been frequent murders, escapes and strikes at the Joliet institution. These culminated in the murder of Mrs. E. M. Allen, wife of Warden Allen.

JACOB LE BOSKY, was state fire marshal, but was dismissed and appointed on a park board by Gov. Dunne.

W. J. MCGUIRE, who was formerly a saloonkeeper at Kewanee, was appointed temporary head of the St. Charles School for Boys by Gov. Dunne. McGuire had failed to pass the Civil Service test for assistant superintendent, but that didn't interfere. Finally Gov. Dunne had to request his resignation.

## CITIZENS' ASSOCIATION TRIED TO CURB DUNNE

Urged Consolidation of State Boards and Endeavored to Effect Economies—Finally Started Tax Suits.

The Citizens' Association of Chicago said in January, 1916:

"We believe that the reorganization of the state government by consolidating the hundred state offices, boards and commissions into ten departments, by making provision for an adequate budget system, and by effecting other needed changes urged by the Efficiency and Economy Committee should be made the leading issue at the coming state election in order that the General Assembly may be induced to take action upon that vastly important subject as a means of lowering the tax rate."

The Citizens' Association of Chicago is a non-partisan body. Its members consist of Democrats, Republicans and, perhaps, Socialists and Prohibitionists. Its work is wholly non-partisan and for the benefit of the people of Chicago and of Illinois as a whole. The Citizens' Association financed the Fergus suits which put the spot-light on Gov. Dunne's wasteful and unbusinesslike methods, upon Dunne's split votes and unconstitutional methods of "modifying legislation." All this was done from the viewpoint of public welfare.

Colonel Frank O. Lowden, Republican gubernatorial nominee, has met the issues suggested by the Citizens' Association and daily is urging reduction in the number of boards and commissions with which the state is burdened. Colonel Lowden is daily advocating a businesslike budget system, whereby economies can be effected. It is Colonel Lowden who is urging reform which will mean lower taxes.

It was Gov. Dunne and his administration who opened the door for the Fergus suits. It was Dunne and his administration that permitted, if they did not expedite, appropriations which shot the tax rate skyward. It was Gov. Dunne, in short, who, after crying aloud against extravagances of the Deneen administrations, himself indulged in a saturnalia of extravagances which sent the Illinois tax rate up from 38 cents under Deneen to 70 cents under Dunne.

The Citizens' Association was right and Gov. Dunne was wrong.

## TO CONSERVE SAND DUNES

Indiana and Illinois People Want New National Park.

Chicago, Oct. 31.—Representatives of more than a score of Indiana and Illinois societies attended a federal hearing here and supported the government's project to establish another national park on the sand dunes of Lake Michigan. Stephen T. Mather, assistant secretary of the Interior, presided.

Societies from both states promised to demand the conservation of the dunes from congress and declared against industries encroaching upon the shore of the lake and against land speculators who attempt to monopolize ownership. Mr. Mather plans immediate campaign in congress for government action.

## DARKEN GRAY HAIR, LOOK YOUNG, PRETTY

Sage Tea and Sulphur Darkens So Naturally that Nobody can tell.

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old time recipe.

Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a 50-cent bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite to impart color and a youthful appearance to the hair. It is not intended for the cure, mitigation or prevention of disease.

## CHIPERFIELD IN GREAT SPEECH AT ASHTON

(Continued from Page 1)

Some time ago a part of our fleet sailed into the bay at Vera Cruz to demand redress for an insult to our flag—that insult, by the way, is still unpunished.

But after capturing the city, losing the lives of many of our boys, cleaning up the city and making it sanitary for the Mexicans—just when it was the time to go on—but when it would demand some real work, Wilson's nerve failed him and orders came to sail away. And the boys who had so heroically captured and held the city, went back to the ships, humiliated and ashamed, and sailed away, leaving 2500 American women there at the mercy of the mob who were clamoring that they be turned over to them.

And then—then after the warships of their own country had gone and left these cowering American women without protection, the captain of a German warship landed and seeking out the head Mexican officer, he said: "I am going to take these women to a place of safety, and if there is so much as a hiss among you pack of hounds, I will seek out and punish the offenders and I will bombard your town." He kept his word, and thus Germany with one boat gave to our women in Vera Cruz the protection that Woodrow Wilson dared not give them with a fleet.

## United States Bullets.

Do you know that the U. S. soldiers who fell at Carrizal were killed with bullets made in the United States which Woodrow Wilson permitted the Dodge Mfg. Co. to ship to Mexico after the Mexicans had once fired upon Americans? The Dodge people were heavy contributors to the Wilson campaign fund.

There is not today a nation in all the world so low as to do us reverence.

No one wants to war on the U. S., and instead of keeping us out of war, the only times that we have ever been within hailing distance of the conflict have been due to the blunders of Woodrow Wilson.

A peace that causes the blush of shame to every person in our country is not peace, but humiliation. We want no war, and we will have none, but if the time ever comes when it is necessary, then let us have war before national honor is lost."

## So-Called Prosperity.

Mr. Chipperfield also spoke of our so-called prosperity and showed how practically all of it is due to great war orders of the belligerent nations. Eighteen months after Woodrow Wilson became president 4,000,000 men were out of work, almost half a million empty box cars were congesting the railroad sidings, engineers were working as firemen, conductors were brakemen, soup houses were open and bread lines were long while business was at the lowest ebb in the history of the country.

Two weeks before the war broke out wheat was selling at 65 cents a bushel. Then came the war like a bolt from a blue sky.

The men were recalled to the mills which began to make war munitions, work was resumed, business thrived and then Mr. Woodrow Wilson stood forth, pointed with pride and said: "Behold what I have done."

Prices began to soar, but it is noticeable that the prices do not go up until after the farmer has sold the goods and they reach the hands of the speculator.

Mr. Chipperfield advocated an embargo on all foodstuffs, thus cutting out speculators' profits and saving the food at reasonable prices to feed Americans instead of the soldiers of Europe. The proposition was loudly applauded by the vast audience.

The speaker showed how some day the war would end as suddenly as it began and then our vaunted prosperity would crumble like a house of cards, unless a good republican tariff was in vogue to keep the flood of millions of dollars worth of cheap made material of Europe from coming in to undersell American-made products. European labor is only one-half as well paid as American labor.

## Treasury Bankrupt.

He showed that the prosperity was not being shown in the U. S. treasury but rather he showed the awful inroads which have been made upon our treasury. When the republican party went out of control they left \$149,000,000 in the treasury. Today the treasury is bankrupt. And there is not a dollar which has not been appropriated for some use or another.

The Wilson administration has made needless positions for millions of democrats at a cost of forty mil-

lion dollars.

He then quoted statistics to show that the north had raised all the money and that the south, under Mr. Wilson's rule, had gained all profits. Mr. Wilson, be it known, is a southerner.

"There is but one plank in their platform that will remain unbroken," said Mr. Chipperfield, "and that is the one-term plank. That plank will be kept intact because the republican party will see to that one week from tomorrow—Tuesday, Nov. 7."

## Lowden Very Popular With Pullman Workers

Governor Dunne's Bill Regarding Republican Gubernatorial Candidate Refuted by Returns.

How does Col. Frank O. Lowden stand with the working men of Illinois?

If one would believe Gov. Edward F. Dunne and his officeholding orators, Mr. Lowden isn't very popular. Governor Dunne in his speeches has gone so far as to say that Colonel Lowden is not liked at Pullman, the home of one of the greatest industries in the world, which was founded by George M. Pullman, Colonel Lowden's father-in-law.

The best tests of such a question are election results. Fortunately, the primary vote of September 13, this year, is available for reference and it completely refutes Governor Dunne's fling. Six precincts of the Ninth ward constitute the town of Pullman wherein are located the great Pullman shops and the homes of the workers. The primary results were: Lowden, 394; Hull, 54; Smith, 8.

This vote showed Lowden ran eight times stronger than Hull, his nearest competitor, while Smith virtually was not in the running. It would be only the fair thing for Governor Dunne to correct his misstatements about Colonel Lowden and the labor vote, especially with reference to the Pullman vote.

## ALL SHOULD VOTE FOR TAX RELIEF

None Should Withhold Vote Because of Lack of Expert Knowledge, Says F. I. Mann.

### SIMPLE AS CALLING DOCTOR

Endorsements of Tax Officials, Students, Educators, Party Leaders, Labor, Business and Farming Chiefs, Sufficient Assurance to All.

"Every citizen should vote 'Yes' for adoption of the Tax Amendment to the constitution Nov. 7, is the exhortation of Frank I. Mann, chairman of the Illinois Tax Amendment Committee as he goes about addressing Farmers' Institutes during the closing days of the campaign.

"The endorsements which the amendment has received from every educator and practical tax man of note throughout the country, as well as from leaders of all the political parties in this state, should assure the most cautious man, not only that he is perfectly safe in voting for this important measure, but that he is voting for himself and his state in doing so. What is good for New York, Minnesota and twenty other states, will be good for Illinois.

Perhaps many of us feel we are too busy to study all the details of tax reform. But the question on Nov. 7, is not one of detail, but of general principle. Shall we have better tax laws? Better tax laws cannot be passed unless the amendment is adopted.

"The average man, when sick, takes some medicine or treatment. He does not prescribe for himself, but calls in a doctor or professional practitioner to attend to the details of his case.

"Illinois is mighty 'tax-sick' and the people on Nov. 7, will vote to call in the doctor. The proposition is just that simple.

"There is no doubt as to the merit of the proposal. The old general property tax system under which we labor, is condemned by economists and tax officials and masters of State Granges from coast to coast. Illinois amendment is endorsed by such men as Professor E. R. A. Seligman and C. J. Bullock of Harvard; Allen Ripley Foote, founder of the National Tax Association; Samuel T. Howe, president of the N. T. A. and chairman of the Kansas State Tax Commission; Tax Commissioner W. H. Corbin of Connecticut; Prof. Thomas S. Adams of Yale, formerly secretary of the Wisconsin State Tax Commission; Lawson Purdy, president of the department of taxes of New York city, and many others.

"In our own state our great educators—President James of the University of Illinois, President Judson of the University of Chicago, President David Felmley of the State Normal University at Bloomington, President H. W. Shryock of the Southern Normal University at Carbondale, President W. P. Morgan of the Western State Normal University at Macomb, State Superintendent Francis G. Blair, Superintendent of Schools H. S. Magill, Jr., of Springfield, and Professors Charles E. Merriam of Chicago, Horace Scierist of Northwestern and O. L. Manchester of Normal favor the amendment. Governor Dunne, Democrat, Frank O. Lowden, Republican, Seymour Steedman, Socialist, and John R. Golden, Prohibitionist, the candidates for governor, urge it strongly. Other candidates, state and local; county clerks, supervisors, county treasurers, etc., are working for it.

Civic leaders, labor leaders, leaders of agricultural and business organizations of all lines who have given disinterested and unprejudiced attention to the matter, favor the amendment.

"As citizens it is up to all of us to vote 'yes'.

"Illinois needs the doctor. Let's vote to call him in.

"Failure to vote, is a vote 'NO'."

### GREATEST DANGER.

Speakers at the meeting of the Tax Amendment campaign committee, says the Chicago Herald, declared that the apathy of the voters was the main danger that lay in the path of the pending tax amendment. The proposal must get not only a majority of the vote cast on it but also a majority of the total vote cast at the election.

The fact that the combined presidential and state elections will bring out an unusually large vote increases the peril from this source. The bigger the total vote, the bigger the vote that must be cast to carry the amendment. Citizens interested in tax reform are thus under an even stronger obligation to cast their votes specifically for the proposal than they would be at an ordinary election.

Every vote not cast for the amendment, under our constitutional provision, is a vote against it, and a vote against it, either directly or through neglect, is a vote against a progressive and scientific movement for an improvement of the outrageously bad tax system in Illinois. Vote for it in November!

## BACKING UP PROOF

THE KIND THAT DIXON PEOPLE CANNOT DENY

Many an earnest Dixon man or woman has publicly endorsed Doan's Kidney Pills.

Week after week, month after month, you've read their statements. Would these Dixon people recommend any medicine if it were not good?

Would they confirm and repeat their statements after years had passed?

Local proof is good evidence. Testimony confirmed years after is better evidence.

The following Dixon man's statement leaves no room for doubt. It must convince every kindly sufferer who reads it.

If your back aches—if your kidneys are weak—profit by Mr. Walford's experience:

W. Walford, blacksmith, Peoria Ave., Dixon, says: "The kidney secretions were irregular in passage. My back ached too. I used several boxes of Doan's Kidney Pills and the pains left my back and my kidneys became regular in action." (Statement given May 21, 1912.)

### NO TROUBLE SINCE

On January 21, 1915, Mr. Walford said: "I have had no kidney trouble at all in the past few years and I give the credit of my cure to Doan's Kidney Pills."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Walford has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y.

LEST WE FORGET.

Under the Democratic tariff  
in 1914 before the European  
war began three millions of  
men were out of work in this  
country. Factories were closed.  
Women and children were hun-  
gry. Do you want to return to  
this condition after the war?

AN EXTENSIVE GUARD.

The Chicago Journal, rampant  
Democratic organ, demands that  
the people keep Governor  
"Dunne on guard" if they would  
be saved from eternal destruc-  
tion. At a cost of \$1,000 per  
hour more than any other gov-  
ernor Illinois ever has had  
Dunne is "some" guard. Do the  
voters want to follow the Jour-  
nal's advice? Their answer will  
come November 7.

A HIGH PRICED GOVERNOR.

Governor Dunne promised  
economy. Illinois is getting it.  
The present Democratic admin-  
istration is costing \$1,000 an  
hour more than any previous ad-  
ministration in the history of  
the state. How do you like the  
brand?

Faded Suicide Note Found.

Savanna, Ill., Oct. 31.—A suicide  
note, supposedly signed by Charles  
Krauger, was found in a bottle float-  
ing in the Mississippi river. There  
was no date but the paper was yel-  
low with age. It told of a determina-  
tion to "end it all."

## ROUMANIANS IN CRITICAL FIGHT

Hot Battles Raging Around  
Little Nation's Borders.

## BOTH SIDES CLAIM VICTORIES

Von Falkenhayn Appears Checked in  
Sweep to the South—Berlin Admits  
Teutons Driven Back in One Sector  
But Reports Important Height  
Stormed—Mackensen Continues  
Drive.London, Oct. 31.—A series of hotly  
contested battles is being waged in  
the mountainous district northeast  
and northwest of Campolung, where  
Von Falkenhayn's armies are attempt-  
ing to sweep down on the Roumanian  
plain.In reports of the rival war offices  
each claims success in this fighting.  
Berlin announces that southeast of  
Rothenburg Pass several Roumanian  
positions were taken by storm giving  
the Teutons possession of the domi-  
nating heights of the neighborhood.  
More than 700 prisoners were taken.Bucharest announces a victory  
northeast of Campolung. In the Pra-  
hove valley, it is stated, two Austro-  
German attacks were repulsed. The  
Teutons were striking at Clabucetel  
Balru, north of Azuga. On the Rou-  
manian left wing an advance was  
made in the region of Dragoslavele,  
the Bucharest war office adds.

Roumanian Victory Grows.

The Roumanian victory in the Jial  
Valley further west is increasing, the  
report asserts. More than 300 addi-  
tional prisoners and four machine  
guns have been brought in. The Rou-  
manian advance in this region is de-  
scribed as a "pursuit" of the Austro-  
Germans.In the Dobroja, Mackensen's cav-  
alry has caught up with the fleeing  
Russo-Roumanians. Sharp actions are  
being fought near the Danube, more  
than fifty miles north of Constanza.  
Rear guards thrown out are attempt-  
ing to save the main forces and enable  
them to make good their retreat into  
Russia, dispatches indicate.
